NOTICE OF PUBLIC HEARING FOR RESOLUTION ON ESTABLISHING STORM WATER DRAINAGE CHARGE FOR CUSTOMERS OF THE SHELBY MUNICIPAL STORM WATER DRAINAGE SYSTEM

NEW

Monday, March 13, 2017 at 6:30 p.m.
Council Chamber, Shelby City Hall
112 1st Street South, Shelby Montana

NEW

NOTICE is hereby given that on August 22, 2016, the City Council of the City of Shelby, Montana approved the creation of the Storm Water Drainage System ("System") as a municipal utility. The City Council will hold a public hearing at the above-mentioned date, time, and place in order to establish Storm Water Drainage Charges ("Rates") for the customers of the System in order to fund the System. The public is invited and encouraged to attend and participate.

Customers of the System are owners of those properties located within Shelby's city limits and identified as benefiting by or that burden the System.

The City proposes basing the System's Rates for residential and non-residential developed properties on $95 per Equivalent Residential Unit (ERU) per year. An ERU is 3,000 square feet of impervious area such as roof tops, asphalt, and gravel. The City proposes to determine that every Single Family Residence is 1 ERU. Non-residential customers include owners of commercial businesses, governmental entities, non-profit organizations, and multi-unit dwellings. The City proposes that metered residential and metered non-residential customers pay Rates monthly as part of the City's monthly utility bill. The City further proposes the System's Rate for undeveloped non-metered property be $0.0025 per square foot per year with a maximum charge of $625.00 per year per geo-code. The City proposes that for administrative convenience the Rates for undeveloped non-metered properties be placed on the semi-annual tax statements. Non-metered properties are properties that are not connected to the City water system or sewer system.

The above method for establishing the Rates for the System is different than and supersedes in its entirety the methods for establishing rates that have previously been proposed and noticed.

If approved, these Rates will be charged to metered customers beginning in June, 2017 and non-metered customers beginning with the first-half property tax statement due November 30, 2017.

The cost of design, construction, installation, and equipping the System is estimated to be $4,575,000. The City proposes to finance a portion of this cost by the issuance of storm water drainage system revenue bonds in the estimated amount of $3,850,000 with the balance of this cost to be paid from grants available to the City in the total estimated amount of $725,000. The principal and interest of the storm water drainage system revenue bonds will be repaid by customer Rates over a term up to 30 years.

Examples of the Rates of the System that customers will pay are as follows:

Single Family Residence Metered	$7.92 paid monthly ($95 per year)
Non-Residential Metered 3000 sq ft of impervious area	$7.92 paid monthly ($95 per year)
Non-Residential Metered 4760 sq ft of impervious area	$12.56 paid monthly ($150.73 per year)
Non-Residential Metered 25000 sq ft of impervious area	$65.97 paid monthly ($791.67 per year)
Non-Residential Metered 146614 sq ft of impervious area	$386.90 per month ($4,642.78 per year)
Undeveloped Non-Metered 6851 sq ft in same geo-code	$17.13 per year on tax rolls
Undeveloped Non-Metered >250,000 sq ft in same geo-code	$625 per year on tax rolls

Documents related to the City's determination of properties that are benefited by and that burden the System, impervious area square footage, and undeveloped area square footage are available for public inspection at the Shelby City Hall, 112 1st Street South, Shelby Montana, during normal business hours.

Further information about the proposed Storm Water Drainage Charge may be obtained by contacting Jade Goroski, City Finance Officer, City of Shelby, 112 1st Street South, Shelby, Montana 59474, phone: (406) 434-5222

Publish: February 22, March 1, and March 8, 2017
