

SHELBY WANTS TO HEAR FROM YOU!

Shelby is updating its Capital Improvements Plan. The plan will be a budgeting and financial tool used by the City Council for maintaining and improving capital facilities such as streets, water systems, sewer, stormwater, buildings, parks and trails, and equipment. The Council would like your advice on selecting and prioritizing the City’s most important needs. Capital improvements include but are not limited to items owned and operated by the City, such as water lines, sewer treatment plants, heavy equipment, and buildings.
